Fundação de Ensino Profissional da Praia da Vitória

2021 — **Junior FullStack Software Developer**
<Academia de Código_>

SKILLS

You can find some of my projects here:

github.com/shrimp16

ABOUT ME

Junior Fullstack Software Developer. After studying Eletronics in high school I found my interest for programming by using Arduino. After joining <Academia de Código_> I simply started enjoying programming even much because now I know how the hidden stuff works and feel like I can do everything.
